

Snoqualmie Valley
Local Advocacy Team

May 29, 2020

Dear _____,

Thank you for the work you do to support our community. Public service is both demanding and rewarding. We're here to help.

We are the Snoqualmie Valley Local Advocacy Team of the King County Alliance for Human Services and we represent many human service organizations in Snoqualmie Valley.

Human services are designed to strengthen our community by providing the solid foundation of essential supports throughout the lives of our community members that allow people to live up to their full potential. This support includes early childhood education to services for seniors; shelters, youth development, and food banks as well as support for survivors of domestic violence and sexual assault.

Our deep experience and commitment to the well-being of every one of our community members makes us uniquely prepared to help our community navigate through this challenging time and the long-term rebuilding process that will follow.

We are asking that you make a meaningful and sustained commitment to bolstering the community's health and human service infrastructure. You can do this through adequate funding and by ensuring that human service leaders have a seat at the table as important decisions are made about our community's health.

Ultimately, it is the responsibility of the cities to be a strong partner in taking care of their residents. Providers are the embedded community partners who are already doing this work. We are the dedicated, nimble, and strategic partners you need to help you take care of all of your residents, and we look forward to continuing this collaboration.

Again, thanks again for all you do and for all you will do. Let's make a legacy.

Kindest regards,

Laura Smith
