Join us for an important conversation about working together as we are coming out of the pandemic. KLS will feature a diverse youth panel who will speak to their hopes and dreams for the future, the long-term positive and negative impacts of COVID-19, and how we can best support them as we head into fall.

What is the Key Leaders Summit?
The KEY LEADERS SUMMIT is a great opportunity for Snoqualmie Valley leaders to network and engage in relevant community conversations, collaborations, and actions! Your voice and expertise is needed at the table!

Who is invited?
The KEY LEADERS SUMMIT is a facilitated community leaders event (leaders = anyone who shows up to participate) to address issues influencing the overall health and well-being of those living in the Snoqualmie Valley. You should feel free to share this invitation with others who may be interested in participating.

Last chance to register!
Join our back-to-school mentor challenge and become a mentor!

We need mentors now! Our valley youth need consistent adults in their lives more than ever as we come out of the pandemic and head back to school this fall.

For more information email BeAMentor@empoweryouthnetwork.org

SVT Transit Survey

Our local transit needs to be enhanced to really work for everyone in the Valley. It regularly shows up in the top three or four priorities on community surveys. But we’re only going to get the changes we need if we speak out loud and clear. PSRC is the group that sets direction for transit priorities for the next 30 years for our region and they want to hear from us. Please help them to understand that we need to create a baseline for transit in our rural area. And pass this along to anyone who may be interested.

Here’s the place to make your voices heard and now’s your chance!

Congratulations to all the students and teachers who will be heading back to the classroom this fall! We can’t wait to support you.
Mental Health First Aid Classes offered this fall!

Youth Mental Health First Aid is primarily designed for adults who regularly interact with young people. The course introduces common mental health challenges for youth, reviews typical adolescent development, and teaches a 5-step action plan for how to help young people in both crisis and non-crisis situations. Topics covered include anxiety, depression, substance use, disorders in which psychosis may occur, disruptive behavior disorders (including AD/HD), and eating disorders.
